4. Progress of ICT & Digital Initiatives 2018-19

Dr. Sulbha Bapusaheb Muley
Associate Professor.

Introduction

In India, Application of ICT in education was started few years back & it has touched the every aspects of human life & it has become a vital part of our daily life. Presently ICT in India has greater potentialities & promising future because our country possesses one of the largest ICT Workforces in the world & there is growing awareness building among the educational stakeholders on the emerging role of ICT in enhancing the process & out come of education.

The national policy of on education 1986 as modified in 1992 stresses the need of education Technology to improve the quality of education.

The curriculum framework (2005) also highlighted the significant role of ICT in school Education. Sarva Shiksh Abhiyan (SSA) a mission of the Indian government to Achieve the UEE, also stresses the Important of ICT in educational sector & the central Advisory Board of education (CABE) also in its report on universal secondary education 2005 featured the comprehensive use of ICT as one of the most Important aspects of schooling. Presently the government of India has taken various initiatives to integrate ICT in educational sector to facilitate information dissemination & communication in every area of education.

Our Prime Minister, Narendra Modi said that information Technology is becoming the growth engine which has the potential to transform India into a knowledge Economy & society.

Hence a proposed increase in the spending on ICTs in school education from less than Rs. 1000 crore in the 10th five year plan to more than Rs. 6000 crore in the 11th five year plan by MHRD could reflect an urgency to harness ICTS for systematic change in the education sector.

Key Words :- ICT, Digital initiative, Diksha Swayam.

Objectives of Progress & Initiatives

1. To develop skills that will enable students to function as discerning students in an increasingly digital society.
2. To access various tools & applications for learning & skill development opportunities.
3. To create a variety of digital products using appropriate tools & applications & saving, storing & managing digital resources.
4. To practice safe legal & ethical means of using ICT.
